STRUCTURE	OPTIMUM DEFAULT	PREMIUM BASED ON THE TRADING VOLUME
-----------	--------------------	--

OptimTrader offers two different commission structures. The OPTIMUM structure is assigned automatically upon account opening, while the PREMIUM structure is determined based on monthly trading volume.

All commissions and fees listed below include both the costs of BG & Partner AG and those of the execution partner Interactive Brokers Ireland Limited. When trading through the platform OptimTrader users shall be subject to the general terms and conditions of BG & Partner AG. Each client is informed about these Terms during the opening of a trading account. BG & Partner AG reserves the possibility that trading conditions by prior arrangement could be customized to the needs of customers.

The transition from the OPTIMUM to the PREMIUM commission structure is not automatic. The client must request the change if they reach the minimum required trading volume, i.e., a total amount of commissions of €1,000 on their trading account within a given calendar year.

The client retains the PREMIUM package in the following calendar year, provided that in the current calendar year they reach a total commission amount of €1,000. If these conditions are not met, we reserve the right to return the client to the OPTIMUM commission structure.

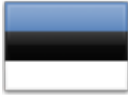

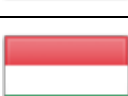

Optimtrader may grant access to the PREMIUM package even if the above conditions are not met, but only in exceptional cases.

There is no minimum required deposit to open a Cash Account. Margin accounts require a minimum deposit of EUR 2,000 to trade on margin.

Notes:

Exchange, regulatory, and clearing fees are added to the commissions. In the USA, Canada and Saudi Arabia, these fees are already included in the commission.

In case of holding Slovenian shares, it is necessary to consider the cost of custody, settlement and regulatory fees, which amount to 0.05% annually of the value of the shares and is calculated daily.

Fractions are charged at the same cost as whole shares, in addition to the fee on whole shares. Example: if the minimum commission for whole shares is €5.25, an additional commission of up to €5.25 is charged for the fractional portion.

For long open positions, your account will be charged with interest. For short open positions, your account will generally be paid interest, except in cases where the contract interest rate is negative. Contract Interest is calculated daily on all open CFD positions held at the close of the trading session and is applied based on trade volume as shown above.

Contract interest is always applied in the contract currency of the CFD and is calculated using the formula: $\text{Contract Interest} = I \times \text{UPV} \times N/360$. Where I = The Contract Interest rate; UPV = The Underlying Position Value, calculated as the CFD Daily Settlement Price x number of contracts; N = The number of days for which the contract interest is being calculated.

BM = Reference Benchmark Rate.

BORROW FEES – SHORT SELLING

For each eligible security there is an indicative rate available on the TWS and the Client Portal

SLOVENIAN CLIENTS : ANNUAL COST

The 50€ annual fee applies to all clients, regardless of the volume or frequency of trading activity. It includes the following services:

- Data storage on servers for tax reporting purposes,
- Notifications regarding regulatory requirements and changes within the trading platform,
- Support in the Slovenian language via email and phone,
- Analytical support (access to the Discord application),
- Comprehensive preparation of all tax reports (capital gains, derivative financial instruments, dividends, interest).

The annual fee is charged at the beginning of each year for the previous calendar year.

The fee applies to the entire calendar year, regardless of the date the trading account was opened or closed.

ADDITIONAL SERVICES AND OTHER FEES

HOURLY FEE FOR PROFESSIONAL SERVICES PREPARATION OF TAX RETURNS FOR PREVIOUS YEARS*

150€ 100€/year

*applies to calendar years prior to 2021

CROATIAN CLIENTS : INACTIVITY FEE

NUMBER OF TRANSACTIONS	INACTIVITY FEE
0 - 5	30€
6 - 10	20€
10+	/

The account inactivity fee is calculated on an annual basis according to the number of executed transactions in the calendar year. If the number of transactions is between 0 and 5, the full inactivity fee of €30 + VAT is charged. If the number of transactions is between 6 and 10, the inactivity fee is €20 + VAT. If the number of transactions exceeds 10, no inactivity fee is charged. For all accounts opened in the last quarter of the current year, no inactivity fee is charged for that year. If the client closes the account in the same calendar year for which the inactivity fee is being charged, the fee will apply only if the account is open for at least 2 months during that year.
